

**Forum Date:** Tuesday, September 30, 2008

**Time:** 5:30 - 7:30 p.m.

**Location:** Nebraska Chapter of the National Electrical Contractors Association (NECA)  
8960 L St., Omaha, NE, Third Floor Meeting Room, Room 306

**Refreshments will be provided**

**TOPIC:** "The Impact of LEED on Construction Professionals"

The ECP Forum will look different this year; each session will focus on a "hot topic" in the industry and include two or three experts to share insights and opinions. The first forum will focus on the impact of LEED certification. It's likely everyone knows the basics of LEED, this session is intended to share what's new about LEED certification; deepen your understanding of LEED from the design, engineer and build perspective; and highlight how LEED will increasingly be part of everyday business for the construction industry. Featured guests for the session are: Nate Maniktala and Andrew Thompson with M.E. Group.

There is **never** a participation fee

**We need you to RSVP by Monday, September 29.**
