

NEBRASKA BUILDING CHAPTER

THE ASSOCIATED GENERAL CONTRACTORS OF AMERICA

Quality People. Quality Projects.

At Work For You: Your Advocate

Representing Your Company in Government

The Nebraska Building Chapter and AGC of America represents your company at all levels of government. Whether it's national legislation, a state legislative bill or a county issue, we are there to defend your business.

- **Local, State and Federal Representation:** AGC of America and the Nebraska Building Chapter devotes major time and efforts to advocacy. The Executive Director works year 'round on government relations, monitoring and advocating industry and business legislation and regulations so you don't have to. With the help and guidance of Building Chapter members who serve on the Legislative Committee, the Building Chapter develops positions on issues that impact your company's future.
- Additionally, our industry's national interests are represented by AGC of America.
- **AGC/PAC:** The Nebraska Building Chapter established the Nebraska Construction Industry PAC to financially support state legislative candidates who are supportive of the construction industry and our legislative agenda. Partial proceeds from the annual spring golf outing are added annually to the PAC fund. Additional donations are encouraged from members, but are voluntary.

Working for You in Nebraska's State Legislature

In the recent past, State Senators have considered many bills that impact your business. The Nebraska Building Chapter is working for your business in regard to these important issues:

- Tax reform (successful in elimination of sales tax on construction labor in 07)
- Licensing laws
- Workers compensation rules & regulations
- Local government public works construction law
- Prompt payment
- Minimize and simplify implementation of bills
- Tax withholding issues
- Employee classification issues
- Funding for transportation projects
