

Associated General Contractors Nebraska Building Chapter Western Nebraska Regional Meeting

DATE: Wednesday, May 7, 2008
TIME: 5:00 - 7:00 p.m. MOUNTAIN STANDARD TIME
PLACE: Country Club, 1818 Avenue A, Scottsbluff, NE

Thank you to Gene Lilly Surety Bond Inc. for co-sponsoring this meeting.

TOPICS FOR MEETING:

ANATOMY OF A CONSTRUCTION CLAIM by Tim Wentz, Construction Management, University of Nebraska - Lincoln

The seminar is based upon the simple fact that strong relationships are at the heart of all successful construction firms. Construction claims erode these relationships and, as such, need to be avoided at all costs. The seminar begins with a short review of what a construction claim is and how it often evolves on a project. The attendees will learn, using examples and case studies, how to develop strategies to anticipate and avoid claims while strengthening their project management.

Tim Wentz spent 20 years in the industry as a design/build mechanical contractor and brings that experience into the classroom. He's a registered professional engineer as well as a LEED Accredited Professional and incorporates sustainable and green construction into his coursework at the University of Nebraska

SURETY BOND UPDATE by Jim King, Vice President Gene Lilly Surety Bonds

Jim King will discuss the 10 key areas contractors need to evaluate when doing business during difficult economic times.

Please RSVP your attendance to the Western Nebraska Regional Meeting by the morning of May 5, 2008. Feel free to bring along other people from your company or invite prospective members to attend with you. Everyone is welcome!

AGC Building Chapter & Gene Lilly Surety Bonds will be providing a light supper and drink for this meeting.
