MAY 5, 2015

FALL PROTECTION STAND DOWN.

PLATTE VALLEY STATE BANK IN GRAND ISLAND NE. 810 ALLEN DRIVE
Lower level of the 1st National Bank Bldg.

Over the last 10 years more than 3,500 workers have died from falls. Falls continue to be the leading cause of death in construction, accounting for more than a third of deaths in the industry.

To help bring awareness and attention to this important issue, OSHA has established its National Safety Stand Down – Preventing Falls in Construction, for the period May 4 – 15, 2015.

Come visit our organization, the Nebraska Construction Safety and Health Professionals – NCSHP, a stellar group of individuals committed to helping shape the safety aspects for construction and general industry in the metropolitan and greater Nebraska communities since 1994.

Please come and join us for an open discussion on ways to help prevent accidental falls in construction. Learn about who we are and the opportunities we offer, to help you create or enhance your network of valuable safety resources.

Come see a live fall protection drop test to see how a free fall can impact your employee. You can also learn ways of protecting employees and learn how to prevent accidental free fall.

(Please park on the side of the building to allow bank customers access to the bank)

9:30 AM -noon

Refreshments will be served throughout the morning. Fall prevention videos will be shown.

Come meet Bernie Hauber with OSHA and get an update on OSHA fall prevention strategies

Vendors on hand with new improved fall prevention equipment.

Live fall demonstration.

Please contact us by calling Ann at 402-343-2517 or email Ann at Acurtis@commonwealthelectric.com to confirm your attendance of request additional information
