## Supervisory Training Program **ONLINE**

Nebraska Building Chapter

301 S 13th Street, Suite 200

Lincoln, NE 68508-2532

Phone: 402-438-0400

Fax: 402-438-0066

Email: agcnebuilders@windstream.net

Well-trained supervisors, foremen and superintendents are crucial to the success of every construction project. Lack of supervisory skills will directly affect every company's bottom line.

### **HERE IS AN AGE-OLD PROBLEM:**

We can't send our employees to training classes because:

- It is 50-150+ miles round trip to get to the classroom
- Our workload is too heavy to allow someone to be gone for two or three days for training
- Travel cost has gotten SO expensive
- Employees do not want to spend the next 10 Tuesday nights in class
- Employee and work schedules are very unpredictable

### **HERE IS THE ANSWER:**

AGC's Supervisory Training Program **OFFERED ONLINE.**

The STP courses will be offered by the Nebraska Building Chapter by contract with Southeast Community College.

STP is designed specifically to meet the needs of the construction industry. Developed by AGC of America and recently updated and revised, the program consists of six courses that focus on the knowledge and skills that everyone must have to be an effective manager of people, time, equipment and materials. Courses can be completed in any order—Click to see what else is new in STP v 2.0.

### **HERE IS HOW IT WORKS:**

Each online course will consist of 16 hours of course work and will be divided into four learning weeks of structured discussion, activities, reading and discussion board comments. You will need to plan on devoting about four hours per week to the course. However, the beauty of online learning allows you the flexibility to choose the hours you devote to the course on a day-to-day basis AND you don't have to travel anywhere. You participate from your home or office computer.

You will be required to participate in one 60-minute webinar discussion each week at a set time. All the rest of the course work will be at your time choice.

The course is taught Pass/Fail basis, with a certificate of completion awarded to those that meet all the requirements to pass. A permanent transcript will be kept for you by Southeast Community College. A certificate of completion is awarded by AGC of America upon completion of all six courses.

### **FEATURES OF THE ONLINE DESIGNED COURSES:**

- Easier to use courseware for students
- A weekly "in live time" verbal discussion time by webinar – Required webinars held Wednesdays from 4:00-5:00pm CST
- Individual support as needed to get off to a successful start with the online training experience
- Improved pre and post evaluations to track your learning

### **COST PER COURSE:**

Each course is \$120.00 per participant for tuition and \$125.00 for the textbook\*\* (member price). The required textbook for each course will be ordered for you by the Chapter office and shipped to the address you provide on the registration form.

### **INSTRUCTOR FOR THE COURSES: JERRY CULVER**

Jerry Culver is a professional Construction Management and Contract Administration consultant. His clients come from all disciplines of business...Corporate, Commercial, Industrial, Healthcare, Government and Environmental. Coordination of the many members of a project team is Jerry's specialty and he has been involved in the process for over 40 years. Over his career his duties have included...Field Engineer, Estimator, Surveyor, Superintendent, Project Engineer, Project Manager, Owners' Rep. and Management Consultant. Jerry is a graduate of the University of Nebraska-Lincoln with a degree in Construction Science. He is an Adjunct Professor at Southeast Community College and has developed and taught several seminars on construction practice, implementation and contract law. He has been a LEED™ Accredited Professional for seven years. Jerry has taught the STP Online courses since 2007.
