Webinar: Connected. Supported. Safe: An Industry United in Safety

February 24 | 1:00 PM CT

[Learn more about Construction Safety Week, scheduled for May 2-6, 2022](#)

Safety is a bond that unites us. It's our connection to each other, and to something bigger than ourselves. When we're connected and supported, we are better able to help ourselves, and our teams stay present and focused on the job.

The more we stay connected and committed, the more we can show up fully to support one another. And the more we feel supported, the safer choices we make, and the better work we deliver, leading to safer selves, safer teams, and safer job sites.

In this webinar, Ken Aldridge, Chairman of the Board for Aldridge, and Mike Burke, Chief Operating Officer for Alberici, will discuss how we remain connected, supported, and safe as one united industry.

Safety colors: A quiz

Safety-related color commands are a part of our everyday lives.

For instance, when we're driving and see a red sign in the shape of an octagon, we know to stop without having to read the word on the sign. Likewise, green means "go."

The American National Standards Institute has requirements indicating what specific colors should be used to communicate hazards to workers.

Take this multiple-choice quiz to find out if you know what these colors mean.

Safety Initiative Goals:

As an AGC Nebraska Building Chapter member, are you participating with:

- 100% of all AGC members and other contractors on AGC jobsites enforcing OSHA standards as they apply to falls, electrical safety and possible another topic.
- 100% of all AGC members will have set their own company goals to improve safety in their firm and have a way to measure progress towards the goal.
- 100% of all AGC members will encourage and support all contractors on their jobsites to set their own company goals for improving safety.
