SPRING GC & SC ROUNDTABLE

DATE: Thursday, April 2, 2026
TIME: 1:50-2:50pm & 3:10-4:10pm *Integrated schedule with [NCSHP's Spring Conference](#)*
LOCATION: Round the Bend Steakhouse, Ballroom
 30801 E Park Highway, Ashland, NE

PROGRAM: The Good, the Bad, and the Ugly of AI in Construction: Legal Risks, Policies, and Practical Guidance, 1:50-2:50pm

Artificial intelligence tools are rapidly entering construction workplaces—from drafting safety manuals and jobsite procedures to incident reporting and training materials. While AI can increase efficiency and consistency, it also introduces significant legal risks if used improperly. This session provides construction professionals with a clear, practical understanding of the “good, bad, and ugly” of AI in safety and compliance functions.

Will Ozaki and Ashley Connell will explain how AI-generated content can create liability exposure in areas such as OSHA compliance, employment law, contract obligations, recordkeeping, and incident investigations. The program will outline when AI can be a valuable assistant, when human oversight is legally required, and when AI use may create unacceptable risk. Attendees will leave with practical guidance, including real-world risk scenarios, and best practices for integrating AI responsibly into your operations.

PRESENTERS: William A. Ozaki and Ashley H. Connell, Attorneys, Woods Aitken

William is a member of the firm’s transactional group and focuses his practice on business services, mergers and acquisitions, banking, taxation, and real estate matters. Will received his J.D. from the University of Nebraska College of Law.

Ashley represents public and private employers in all areas of labor and employment law, focusing on preventative assistance and counseling. She assists and advises clients in developing HR policies; investigating discrimination, harassment and retaliation claims; and other employment issues. She received her J.D. from the University of Nebraska College of Law.

PROGRAM: AI & Cybersecurity, 3:10-4:10pm

This presentation for safety professionals will focus on how AI and cyber threats intersect with human behavior, risk management, and organizational safety culture – helping attendees recognize modern risks and make better day-to-day decisions.

PRESENTER: **Tim Weidman** is the Director of Frankel Technology Services, the technology arm of Frankel CPA. He has more than 30 years of experience in IT and cybersecurity and regularly speaks to business and nonprofit leaders about practical, real-world applications of AI, emerging technology risks, and simple, actionable steps to improve security.

WHO SHOULD ATTEND: Open to everyone – especially Risk Management, Safety, Human Resources, Legal, Project Management, and Superintendents.

Cost for meeting: No cost to attend, please register by Tuesday, March 31, 2026.
