FALL GC & SC ROUNDTABLE

DATE: Thursday, October 30, 2025
TIME: 12:25-1:35pm and 3:10-4:10pm
Integrated schedule with NCSHP's Fall Conference
LOCATION: Round the Bend Steakhouse, Conference Center
 30801 E Park Highway, Ashland, NE

PROGRAM: Nebraska Medical Cannabis Law 12:25-1:35pm

In November 2024, by affirmative votes of approximately 70 percent, Nebraska voters passed Initiatives 437 and 438, which collectively provide for certain medical professionals to recommend the use of medical marijuana and create a commission to regulate the manufacture, distribution, and sale of the drug within Nebraska's borders. This presentation will dive into the details of these laws, review their current regulatory status, and address common sense steps that Nebraska construction employers need to take to ensure legal compliance and safety on jobsites. Additionally, we will consider the interaction of federal laws and regulations with the passage of these initiatives.

PRESENTER: Erin Ebeler, Attorney, Woods Aitken

PROGRAM: Sensors, Drones, and Data: Construction Safety in the AI Age 3:10-4:10pm

In today's fast-paced construction environment, enhancing onsite safety without expanding manpower isn't just a challenge it's a necessity. This session explores how cutting-edge technologies are empowering teams to do more with less while creating safer job sites. From AI-powered analytics and smart wearables to real-time monitoring tools and integrated project platforms, we'll dive into the latest trends that are transforming safety protocols and delivering actionable insights on demand.

ATTENDEES WILL DISCOVER:

- Tools and solutions that optimize safety with lean staffing
- Strategies for proactive hazard detection boosting onsite decision-making
- Safety solutions ranging from Easy to Enterprise

PRESENTER: Russ Bollig, Director of Strategy & Growth at Multivista. Russ leads operations for the company's U.S. and Canadian headquarters. Known for driving innovation, Russ played a pivotal role in launching Multivista's AI department and has been instrumental in developing a suite of technology-forward solutions that enhance safety, efficiency, and transparency across construction projects.

WHO SHOULD ATTEND: Open to everyone – especially Risk Management, Safety, Human Resources, Legal, Project Management, and Superintendents.
