Safety Initiative Goals:

As an AGC Nebraska Building Chapter member, are you participating with:

- 100% of all AGC members and other contractors on AGC jobsites enforcing OSHA standards as they apply to falls, electrical safety and possible another topic.
- 100% of all AGC members will have set their own company goals to improve safety in their firm and have a way to measure progress towards the goal.
- 100% of all AGC members will encourage and support all contractors on their jobsites to set their own company goals for improving safety.

You never give safety a day off. Thank you for staying safe and helping to keep others safe on the job, too!
