# Developing your Workforce in 2020

## Construction Supervision Fundamentals (CSF)

CSF is designed by AGC of America, specifically to meet the needs of the learner as well as the construction industry. Developed and field tested by contractors and for use in training new supervisor, or newly promoted foremen, or anyone who seeks career advancement.

This is three half-days of in-classroom training and will be held **March 20, April 3, and April 10, 2020.**

The CSF workshop is a highly interactive first step on the path to developing construction supervisors. It presents skills and knowledge via nine topic sessions. **Click here** to learn about the course content.

**Who should take this course:** Newly promoted employees to supervisory roles, or those seeking career advancement.

**\*This is NOT a replacement for AGC's STP Online Blended Learning Program. STP should be taken following successful completion of CSF.**

**Click here for the registration form**

**STP Online Blended Learning**

The skills of your seasoned Supervisor—supervisory/management skills – or lack of them directly affects the company's bottom line.

STP Online offers six courses over a two-year period in a blended learning format—devoting 4 hours per week to reading, listening to podcasts, and online coursework, plus 60-minute live video conference class once a week.

Line-up of courses in STP Program:

- **Leadership and Motivation**, January 2020
- **Communication**, February 2020
- **Contract Documents**, March 2020

**Click here** for more information.

**Register by December 13, 2019 for the January 2020 class.**

## A3 Collaborative

### What is the A3 Collaborative?

A joint forum co-sponsored by AIA-Nebraska, ACEC-Nebraska, and AGC-Nebraska Building Chapter. A steering team of members from each association determines programing, direction and event guidance.

### What is the purpose of the A3 Collaborative?

To facilitate an opportunity to improve communications, build relationships and foster collaboration between A-C-E professionals.

### Who is the primary participant in Collaborative activities?

Everyone is invited through the association's usual event communications, especially the speaker series. However, the prime target is young to mid-career A-C-E professionals who work together on projects.

### What does the early 2020 season look like?

## Print Reading 101

The Nebraska Building Chapter's **Print Reading 101** is a 10-hour flexible, in-house, construction-specific training series developed by a construction educator with field experience. The course curriculum was determined and tested by a Task Group of Building Chapter members. This is a ready to-go training package! All you add is a session facilitator.
